- o **Activities/Clubs:** Founder of Game Development club, Marketing executive for Project Luminosity and TeenTalkMiss, Operations executive for soccer club, and Data Science club.

### McMaster University

Hamilton, Ontario

B.S. in Computer Science

Expected Graduation, May 2030

- o **Year:** Year 1
- o **GPA:** N/A
- o **Related Coursework:** Computational Thinking, Introduction to Computer Programming (Python), Linear Algebra, Calculus I

## WORK/VOLUNTEER EXPERIENCE

### Workshop 12

Mississauga, Ontario

Automotive Electronics Accessory Technician

Sep 2023 – Jan 2024

- Soldered and assembled multiple harnesses for Brainiac kits, assembled/repared 15+ tablet companions. Repaired and calibrated 3D printers when needed.
- Lead Social Media manager, collaborated with multiple employees and a supervisor to create engaging content and grow our customer base, garnered over 50k+ views.
- Packaged, labeled, and shipped 60+ kit orders. Unpacked and logged returns.

### AZ Soccer Pro

Mississauga, Ontario

Assistant Coach

Sep 2024 – Dec 2024

- Managed and supervised multiple age groups of players, setting up training sessions and games.
- Encouraged and engaged younger kids with the team to play and collaborate.

### ISNA Canada

Mississauga, Ontario

Volunteer

Feb 2023 – Oct 2024

- Attended and helped set up Friday Night sessions, tasked with supervision.
- Summer camp and Sunday School support.

## PROJECTS

### Clash Royale Bot *Machine Learning / OpenCV*

- Built a real-time computer vision pipeline using YOLOv8, OpenCV, and MSS for screen capture to detect and classify Clash Royale cards from live gameplay, including a custom-trained YOLOv8 model on my own labeled dataset. Integrated Python-based event logic for elixir tracking, card-cycle timing, and opponent deck prediction.

### Algorithmic Bias Tool Visualisation *JavaScript / Data Visualisation*

- Using a job applicants dataset from Kaggle, I used JavaScript and the p5.js library in OpenProcessing (HTML and CSS built-in) to visualize ABT uniquely.

### Personal Portfolio

- Using React.js and Tailwind CSS, I created an attractive portfolio, implementing modern design and UI, while making UX enjoyable.

## ACTIVITIES AND LEADERSHIP

### Game Development Club JFSS

Mississauga, Ontario

Founder

June 2024 – June 2025

- Developed and taught 15+ members of the club to make a simple car driving game in Unity.

### Project Luminosity, Teen Talk Mississauga

Mississauga, Ontario

Marketing Executive

October 2024- June 2025

- Developed and published engaging content to showcase projects and attract more members to the clubs.

## SKILLS

**Programming:** JavaScript, Python, HTML, C#, Haskell

**Tools:** Expo Go, VS Code, IDLE (Python), Unity engine, p5.js editor, OpenProcessing, GitHub, YOLO, Blender (3D Modelling)
